TRACKS

Our quality is your succes!

GP Equipment BV is een Nederlands bedrijf opgericht in 2007. Wij zijn gespecialiseerd in verkoop van rijwerkonderdelen en reparatie van de meest uiteenlopende rijwerken van rupsaangedreven machines.

GP Equipment BV is a Dutch company founded in 2007. We are specialized in the sale of undercarriage parts and repairs of the most genuine undercarriages of track-driven machines.

We leveren voornamelijk de volgende rijwerkonderdelen:

- Rubbertracks
- Kettingen (staal)
- Rupsplaten
- Rubberpads
- Roadliners
- Rupsbouten en moeren
- Onderrollen
- Bovenrollen
- Spanwielen
- Spanveren
- Sprockets
- Aandrijfmotoren

We mainly supply the following tracks parts:

- Rubber tracks
- Track chains (steel)
- Track shoes
- Rubber shoe pads
- Roadliners
- Chain bolts en nuts
- Track rollers
- Carrier rollers
- Idler wheels
- Recoil springs
- Sprockets
- Travel motors

Wij leveren rijwerkonderdelen voor machines van 0,5 tot 100 ton zoals:

- Rups graafmachines
- Mini en midi graafmachines
- Rupsloaders
- Dozers
- Schrankloaders
- Rupsdumpers

Track parts are produced for machine weight categories 0,5 to 100 tons such as:

- Hydraulic tracked excavators
- Mini and medium excavators
- Excavator loaders
- Dozers
- Skidsteer loaders
- Tracked dumpers

Voor nagenoeg alle wereldwijde grondverzetmachinemerken

RUBBERTRACKS - RUBBER TRACKS

TRACKS EN ROLLEN / TRACKS AND ROLLERS

 De rollen waar de tracks van jouw machine op lopen zijn belangrijk bij de aanschaf van nieuwe tracks. Gelukkig hoef je dit niet allemaal zelf uit te zoeken want wij kunnen je aan de hand van het merk en type van je machine al vertellen wat je nodig hebt.

 The rollers on which the tracks of your machine run are important when purchasing new tracks. Fortunately, you don't have to figure this all out yourself, because we can tell you what you need based on the brand and type of your machine.

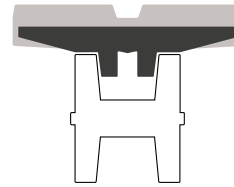

ROL TYPES / ROLLER TYPES

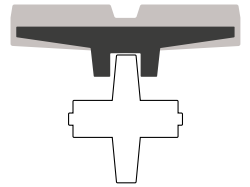

Op de nokken /
On teeth

Op de nokken en de track
/ On teeth and on track

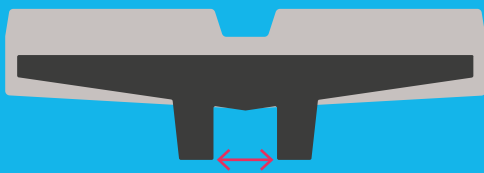

Naast de nokken
op de track /
Besides teeth on track

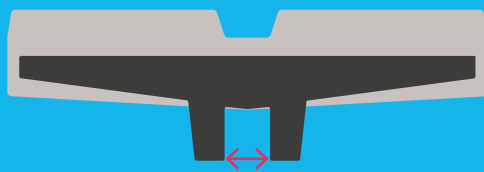

Tussen de nokken /
Between teeth

WIDE | NARROW

Breed spoor / Wide

Smal spoor / Narrow

RAILTYPE

Loopvlak langs de nokken /
Tread besides teeth

WHITE (NON-MARK)

Tegen zwarte vegen op vloeren /
To prevent black streaks on floors

ASYMMETRICAL

Nokken uit het midden /
Teeth out of centre
